

Daniel L. Sutliff Journal Articles

“High-Speed Turbofan Noise Reduction Using Foam-Metal Liner Over-the-Rotor”, Journal of Aircraft, Sept-Oct 2013, D.L. Sutliff, M.G. Jones, and T.C. Hartley.

“Foam-Metal Liner Attenuation of Low-Speed Fan Noise”, Journal of Aircraft Oct-2009, D.L. Sutliff, and M.G. Jones.

“Rotating Rake Turbofan Duct Mode Measurement System”, International Journal of Aeroacoustics, June 2007, D.L. Sutliff.

“Low-Speed Fan Noise Reduction with Trailing Edge Blowing” International Journal of Aeroacoustics, 2002, Vol 1 No 3, D.L. Sutliff, E.B. Fite, E. Envia, and D.L. Tweedt.

“Propagation of Spinning Acoustic Modes in Turbofan Exhaust Ducts ” AIAA Journal of Propulsion and Power, Sep-Oct 2000, Nallasamy, M., Sutliff, D.L., Heidelberg, L.J.

“Comment On Acoustic Mode Measurements Using A Continuously Rotating Rake,” AIAA Journal of Aircraft, (Note), Nov-Dec 1996, Sutliff, D. L, Envia, E.

Sutliff, D. L., Nagel, R. T., “Active Control of Far-Field Noise of a Ducted Propeller,” *AIAA Journal*, Feb 1995.

“A Laser Welding Nozzle for Beam Delivery Optics Protection,” *Welding Journal*, June 1992, Sutliff, D. L., McCay, M. H., Sharp, C. M.
